Kansas Department of Health and Environment Contact Information

Bureau of Environmental Remediation

Joe Dom Kansas Dry Cleaning Program Kansas Department of Health and Environment 1000 SW Jackson, Suite 410 Topeka, KS 66612-1367

Phone: 785-296-4367 Fax: 785-296-4823

E-mail: jdom@kdheks.gov

Web site: www.kdheks.gov/dryclean/index.html

Dry cleaners must register annually with this bureau, which administers the Kansas Drycleaner Environmental Response Act (DERA). It is a regulatory program focused on preventing spills from being released off site. It offers financial assistance for assessment and remediation activities at dry-cleaning facilities where spills (releases) have occurred.

Bureau of Air

Tim Evans Air Compliance and Enforcement Section Kansas Department of Health and Environment 1000 SW Jackson, Suite 310 Topeka, KS 66612-1366

Phone: 785-296-1542 E-mail: tevans@kdheks.gov

Web site: www.kdheks.gov/air-permit/indexCE.html

This KDHE bureau regulates air emissions. It ensures dry cleaners minimize air leaks and contaminants in order to meet KDHE (state) and EPA (federal) regulatory requirements.

Bureau of Waste Management

Ken Powell
Compliance & Enforcement, Waste Reduction & Assistance
Section

Kansas Department of Health and Environment 1000 SW Jackson, Suite 320

Topeka, KS 66612-1366 Phone: 785-296-1121

E-mail: kpowell@kdheks.gov Web site: www.kdheks.gov/waste/

This bureau regulates storage and disposal of solid and hazardous waste in accordance with KDHE (state) and EPA (federal) regulations.

Small Business/Community Support

Melissa Hammond Small Business and Pollution Prevention Coordinator Bureau of Environmental Remediation Kansas Department of Health and Environment 1000 SW Jackson, Suite 410 Topeka, KS 66612-1367

Phone: 785-296-6603

E-mail: mhammond@kdheks.gov

Web site: www.kdheks.gov/sbcs/index.html

This KDHE division provides support services to the public, communities, and small Kansas businesses through grants and technical assistance. Contact this group with general questions about your permit, whom to best answer your questions, or pollution prevention technologies.

Instructions for Use

This calendar is designed to keep all records required by the Kansas Department of Health and Environment (KDHE) for dry cleaners that use petroleum or another perc-alternative solvent. Inspection forms cover requirements of the *Kansas Drycleaner Environmental Response Act* (DERA) and requirements for hazardous waste. **Keep inspection logs (these calendars) on site for at least five years.**

General DERA requirements

- When the year is complete, file the calendar and associated paperwork in case you are ever inspected.
- If you answer "no" to any of the inspection requirements, fill out a corrective action form at the back of the calendar. You can leave the corrective action form in the calendar so it is part of your permanent record.
- Register annually with KDHE Bureau of Environmental Remediation (BER).
- Containment materials must be made of steel, epoxy, polyethylene, or concrete (or other material approved by KDHE).
- Secondary containment must be large enough to contain any spill, leak, or release of solvent.
- Inspect hazardous waste containers and secondary containment for deterioration weekly.
- There can be no floor drain in the secondary containment area. If you have an existing drain, it must be permanently covered or a cylinder put around it high enough that solvent spilled or leaked from the machine will not enter the drain.

Hazardous waste requirements

As a petroleum dry cleaner, you probably don't generate hazardous waste unless the flash point of your solvent is less than 140°F. If you don't use perc, but still generate separator water, then the separator water must be handled in one of the following ways:

- evaporate in a heated unit
- evaporate in a nonthermal unit using air atomization or misting
- handle as hazardous waste, and have it hauled off by a licensed hazardous waste transporter

Waste from Green Earth dry cleaners may be handled as special waste by contacting KDHE's special waste unit at 785-296-0681 and submitting the form available at www.kdheks.gov/waste/forms/solidwaste/sw600-specwaste.pdf. As part of the DERA performance standards, secondary containment for special waste is required.

For further information on whether or not you're a hazardous waste generator, call the Kansas Small Business Environmental Assistance Program (SBEAP) at 800-578-8898 for free, confidential assistance. If you are a hazardous waste generator, keep all hazardous waste manifests and other "loose" paperwork in the envelope in the back of the calendar. Post emergency numbers by the telephone (see back of calendar) as required for hazardous waste generators.

If your machine has a total manufacturer's rated dryer capacity equal to or greater than 84 pounds (38 kilograms) and was constructed after December 14, 1982, then it may be subject to additional air quality performance standards. Contact SBEAP at 800-578-8898 or see page 28 of the Kansas Dry-Cleaner Manual (http://sbeap.org/files/sbeap/publications/DryCleanerManual.pdf) for additional information.

New for 2016

KDHE CONTACT INFORMATION

• Updated program contact information.

CORRECTIVE ACTION FORMS

• Providing four forms only. If more are needed, make copies of a blank form, print from the online calendar, or contact SBEAP.

FOR MORE INFORMATION

Contact SBEAP at 800-578-8898 or check its website at www.sbeap.org for dry-cleaner information. Several publications and useful tools are available on the dry-cleaner industry resource page at www.sbeap.org/resources/industries/dry-cleaners.

The KDHE Dry Cleaning Program website is at http://www.kdheks.gov/dryclean/index.html. Here you can do the required annual registration of your dry cleaner on-line. You can also find Kansas-registered dry cleaners.

Both the SBEAP and the KDHE Dry Cleaning Program websites have electronic copies of compliance calendars and <u>The Kansas Drycleaners Manual</u>, a manual that assists with understanding the environmental requirements for Kansas drycleaners.

The KDHE *Hazardous Waste Generator Handbook*, as well as other helpful hazardous waste forms and technical guidance documents, are available on KDHE's website at www.kdheks.gov/waste/p inspections.html.

Response Action

Fire extinguishers

Spill control

Fire alarms

Fire Call the fire department, or extinguish the fire using an appropriate fire extinguisher.

Spill Contain the flow of spilled dry-cleaning solvent and waste to the extent possible. As soon as practicable, recover the spilled dry-cleaning solvent and waste plus contaminated materials and/or soil. Contact KDHE immediately at 785-296-1679 (24 hours a day). Recovered spill materials may need to be handled and disposed as a hazardous or special waste.

Fire/Explosion or Release (release or spill that can or will adversely impact groundwater, surface water, or soils of the state)

Notify the National Response Center at 800-424-8802 **and** notify the Kansas Department of Health and Environment, Bureau of Environmental Remediation at 785-296-1679 with the following information:

- Name
- Address
- US EPA ID number
- Quantity and type of waste
- Quantity and disposition of recovered materials

- Date
- Time
- Type of incident
- Extent of injury
